

AI-Powered Customer Support and Service Automation

Technology Stack

User Interface: React.js, HTML, CSS, JavaScript

Backend: Python (FastAPI/Django)

AI Engine: OpenAI GPT / IBM Watson Assistant

Database: MySQL / MongoDB, AWS RDS

Storage: AWS S3 / IBM Cloud Object Storage

APIs: Twilio, SendGrid, Salesforce/Zendesk

ML: BERT, GPT, Scikit-learn

Infrastructure: Docker, Kubernetes, AWS EC2

Application Characteristics

Open Source: React.js, FastAPI, Django

Security: JWT, OAuth2, HTTPS, AES-256, OWASP

Scalability: Microservices, Kubernetes

Availability: Load Balancer, Auto Scaling

Performance: Redis Cache, CDN
